Minutes 16 February 1967

Present

STAT

A. Approval of Minutes:

The minutes of 8 February 1967 were approved as written.

B. Old Business:Discussion and Implementation Guidelines for Recall of KH-7 &  
KH-8 Photo Coverage

This subject was briefed to the Board in the meeting of 8 Feb. 1967. The Board at that time asked the members to present comments, suggestions, and/or concurrences at today's meeting.

[ ] IPD, commented on the time element involved in the use of the keypunch, the P-1 minicard AP Camera, and the manual operation required. He estimated under a normal work operation one half a backlogged mission could be worked per month in addition to keeping up with the current missions received.

STAT

[ ] proposed the current mission 4036 be worked as first priority then to work backward on the KH-8 backlog and subsequently with the KH-7 material. New missions as they arrived would take precedence over any backlog (however, missions in work would be completed in their entirety before starting the next priority mission). The question of processing the TID plots simultaneously with the photography or separately was discussed. It was agreed that priority should be given to processing the TID plots backlog; but it was anticipated that photo reproduction could be accomplished concurrently. This proposal was accepted with the suggestion by [ ] that upon completion of 4036 consideration would be given to preparing a cable advising the community of the plan and the format available for distribution.

STAT

[ ] indicated he would establish a project number and requirement.

B. Old Business (cont'd):Reinstitution of the Mission Plot Map in the OAK Publication

[ ] indicated, as a result of the survey made through the Ad Com and their resultant recommendations, that the Mission Plot Map will be reinstated in the OAK. Whenever possible, dependent upon the availability, the map will occur in the first edition of the OAK. It is not to be repeated in subsequent OAK reports.

STAT

[ ] indicated we were able to have the map in the first edition of Mission 4036.

STAT

Inclusion of the BE No. in the OAK Report

[ ] reported that the Ad Com of 6 January 1967 recommended the Basic Encyclopedia numbers be included in the OAK reporting. The committee further suggested that the action be effective at such time as NPIC adopted the UNIVAC system (sometime this summer). [ ] concurred on the time and pointed out that if a target had no BE number, it will so be indicated.

Use of Document Reference in NPIC PI Reports

In reference to the memo distributed to the Board members on 23 Jan 67, [ ] discussed the intent and need for judicious use of references in NPIC products. He further indicated certain comments by [ ], as to the inclusion of project requirement numbers, were resolved. The Board concurred in the memo as written.

STAT

C. New Business:NPIC Studies Under JIIRG

[ ] indicated differment of the item until the next meeting but did mention that PAG was considering the topics of keys and the scheduling of basic and direct support reporting.

STAT

PAG Status Report

[ ] commented briefly on the fact that the report might be modified for purpose of ease in reading. [ ] encouraged all members to submit any specific suggestions they may have.
